### ***Turns on Red***

After coming to a complete stop at a red traffic light, you are allowed to turn *right* on red after giving the right-of-way to pedestrians and other vehicles, unless a **NO TURN ON RED** sign is posted. You may turn *left* on red following the same rules *only* if you are turning from a one-way street onto another one-way street.

Right turn

Left turn from a two-way road to a two-way road

Left turn from a two-way road to a one-way road

Left turn from a one-way road to a two-way road

### ***U-Turns***

A U-turn is a tight left turn that puts you in the opposite direction in which you were just traveling.

Unless a **NO U-TURN** sign is posted, you are allowed to make a U-turn as long as your path is clear and it is safe to do so.

- You may only make a U-turn from the lane closest to the center line.
- Make sure you have enough room to complete the turn. Don't create a hazard for oncoming vehicles.
- Do not attempt a U-turn at the crest of a hill,
